Called stuff I mentioned to you.
The first is a compilation of references
they used to prepare the action items.
Several of the actions involve Se, salt &
pesticides but no R.B. references on the
first two. I there any key documents,
outs or others we might want to mention.
Second, copy of proposed ranges. Did
I get your comments right? Third,
draft of their proposed actions. They wanted
comments by the 27th but I called and
said we could not send before 3 Dec.
If you have comments please slip to me, I
will collate with mine and Jones and send
